An intimate story of the discovery of King Tut's tomb and the significance of that discovery in revealing hitherto untold history, was brought to the Salem Rotary club members Tuesday afternoon at the Elks home by Prof. Bruce Baxter of Mt. Union college.

Having recently returned from his second trip through Egypt, Prof. Baxter was able to give first-hand knowledge of circumstances surrounding the search for the tomb and he embellished his account with enough historical data to give the Rotarians a renewed interest in the whole affair.

America may take pride in the fact that Mr. Carter, an American, is opening Tut's tomb, Baxter said, and Ohio may take additional pride in the fact that Mr. Carey, an engineer of Cincinnati, is in charge of an irrigating scheme that will open up for cultivation thousands of acres in the Nile valley and feed tens of thousands of people in that region of Egypt.

Nothing in the world, Baxter continued, can compare with the view of a sunset from the citadel of Cairo, revealing the city's scores of spires of Mohammedan temples, the pyramids and groups of mounds, a green ribbon which is the valley of the Nile, and a silver thread which is the Nile itself; off in the distance the dim outline of a camel caravan; then behind you there is the boom of a great cannon, announcing that the day is ended.

**Dramatic Discovery**  
Interest in the discovery of Tut's tomb is worldwide and yet King Tut was one of the least known of Egyptian kings according to Baxter. Some of the finest tombs in the land were built not for kings but for sacred bulls which the Egyptian worshipped. Then came Tut's father-in-law to the throne and he, the only pharaoh king in Egypt, turned to the worship of the spirit god, instead of the sacred bulls.

King Tut ascended to the throne when he was 18 years old and he reverted to the worship of the sacred bulls. His tomb was discovered in a dramatic fashion. For years Egyptians had been digging in the valley of tombs in search of it. One Egyptian declared that it would be found near

Burial Plans.

David Flowers, 78, one of 10 Civil war veterans residing in East Palestine, died at 7 p. m. Tuesday from complications and infirmities, at the home of his niece, Mrs. David Beicht in that city.

A most peculiar incident in connection with Mr. Flowers' death was the fact that three months ago he purchased his own casket from an East Palestine undertaker and ordered that its plate should be engraved bearing his signature and designating his war service.

The undertaker says Mr. Flowers did not seem agitated over the prospect of death, neither did he mention any premonition of his demise. The aged veteran is survived by four sons, and one daughter, one brother and two sisters.

Rev. Speakman, pastor of the United Brethren church, will officiate at the funeral service at 2 p. m. Friday, burial in the East Palestine cemetery.

\$74 Profit For Each  
Fireman, Policeman  
From Winter Circus

Each of the eight members of the Salem police and fire department made \$74.79 from the benefit winter circus and mardi gras held all last week.

The amount each man received will purchase a good winter uniform and a new gun.

A final meeting was held Tuesday afternoon and all accounts balanced. It is probable that next year Salem will see a bigger and better circus.

The two departments wish to thank the public for its hearty co-operation in making the circus a success.

MANY NEW TROOPS  
BEING ORGANIZED  
TO HELP SCOUTINGInfluential Citizens Give  
North County Council  
Their Support.SALEM'S FINANCIAL  
QUOTA IS PLEDGEDTraining Course For Scout  
Leaders Will Last  
Eight Weeks.

Since the organization of the Northern Columbiana County Council, Boy Scouts of America, which includes the eleven northern townships of the county, with Lee R. Chamberlain as Scout Executive, an unusual interest has been manifested on the part of influential citizens in each of the included towns, looking toward the building up of the present scout personnel and the addition of many more live troops where there is room.

Quite a number of desirable men have agreed to assume leadership of new troops and others are taking out commissions as assistants in troops already established but needing help.

Several Rotary and Kiwanis clubs have sent in requests for speakers to present the Scout program to their bodies, that they may know just how to proceed in their desire to lend moral support to the movement.

Salem's quota for financing the council has been fully pledged and active campaigns are being waged in the other towns assuring the permanency of the organization.

On invitation of Superintendents of Schools, Executive Lee Chamberlain has addressed high school assemblies looking toward recruiting advanced students as patrol leaders and has met with an enthusiastic response.

**Organizing New Troops.**  
At least three new troops are under organization in Columbiana, two in Leetonia, one in Lisbon, and two in East Palestine, beside the additional leadership that is being recruited for troops now existing in each of the towns under the council.

Program of the Scout Leader's Training Course, lasting eight weeks is now being worked out by the committee on Leadership Training and the Executive Training which there will be given full instruction in troop management and scout training, including the whole scout program.

Already the council is making available to the field many books, pamphlets and aids that could hardly be afforded by the individual troops. One notable instance is the purchase, by council, of a recently introduced method of teaching by visualizing, being a set of stereoscopic views of the proper methods of carrying out certain tests as demonstrated under the supervision of national officials.

Active co-operation has been volunteered in each community under the council to put scouting on a permanent, aggressive basis, with the idea that it is a community asset worth building up.

Rabbit Supper; Pro-  
gram Is Given.

The first annual Fathers and Sons banquet, which brought together Lutheran Cadets and their fathers at the Lutheran parish house, Broadway, Tuesday night, was the happiest occasion in the history of this organization of boys.

A fine rabbit supper, served by the mothers and sisters, was the main attraction of this occasion and it left a contented group for the program to follow.

Daniel Brobender, commander of the Cadets, presided as toastmaster over an entertaining program. Rev. E. E. Rutsky, pastor of Emanuel Lutheran church, spoke of the work of the Cadets and urged them to continue their efforts. H. A. Gager, president and E. E. Enderlin, secretary of the Kiwanis club, addressed the boys and gave them many interesting reminiscences of boyhood days.

William Rodendorfer and R. W. Hawley also gave short talks.

The boys held three meetings each month for business, social pleasures and drill. The organization's aims are similar to those of the Boy Scouts.

One Car Turning Over  
In The Ditch.

Shortly after 9 p. m. Tuesday a coupe driven by a Firestone salesman and a sedan driven by a Freedom Oil company employee crashed in the Winona rd.

The accident resulted when one of the lights on the Firestone company coupe went bad, the approaching driver did not realize which of the lights was burning in time to prevent the head-on collision. Both cars were damaged but the occupants were uninjured.

At 1 a. m. Wednesday a machine driven by Martin Welch, Columbia st., is reported to have been crowded off the road a short distance north of Lisbon.

This machine turned over three or four times and Welch was removed to the Central Clinic hospital where he is suffering from the effects of a severely lacerated knee, ankle and other serious bruises. The top of his car was torn off, breaking the windshield off at its base. A Salem man in Welch's car escaped with but minor injuries. Welch having been pinned under his car when it landed in the ditch. The identity of the second driver was not learned.

Composite Turkey  
And Big Mince Pie  
For Thanksgiving

New York, Nov. 28.—Figures compiled by the chronic statistician this year indicate:

That if all turkeys eaten at Thanksgiving dinners Thursday were transformed into one gigantic composite fowl he would tower 30 feet above the torch of the Statue of Liberty and would be 150 feet long. In fact, he would be so big he probably would scorn the ax "as the tempest scorns the chain," and there would be many "turkey-less" Thanksgiving dinners.

And that if all mince pies consumed Thursday were, instead, compounded into one huge piece of pastry the Equitable building could repose on its massive bosom, and it would be 34 feet high. In fact an ocean of essence of poppermint would be required to neutralize the gastric disturbance it could generate.

TOWNSHIPS NAME

Its Board; Perry Also  
Names Members.

Every farm owner in Salem township is to be solicited for a contribution of 50 cents to make up a fund to pay for the services of five men who have been elected to serve as an advisory board during the 1924 reapportionment period.

This was agreed to at a meeting of farmers and others held at the Franklin Square school Tuesday night, the suggestion being advanced by L. J. Nold of the Mt. Nebo district.

There were 50 men and three women at this township meeting. H. C. Waddell was chairman, and Clark J. Halverstadt was secretary.

After nominations were made from among freholders located at the four corners and the center of the township, election was by ballot, and resulted in the selection of the following: J. C. Potto, west side; F. E. Betz, north side; Henry A. Halverstadt, south side; George M. Durr, east side; S. H. Siler, central district.

"This committee should have the support of every resident of Salem township," Mr. Nold said immediately after the committee was announced. "And I believe that the only way we can give it support is to put something into it. I feel that every farm owner in the township should contribute 50 cents per farm to a fund to pay this board for its services."

The farmers of the township will be solicited by school districts, solicitors being named as follows: Mt. Nebo, L. J. Nold; Mt. Vernon, R. B. Halverstadt; Maple Run, Paul Siler; Franklin Square, Homer Entriken; Highland, Edward Cox; Jersey Ridge, Edward Weingart; Fairview, Edward Grubbs.

The advisory board to assist in the work of reapportionment of property appointed at a meeting of Perry township trustees Tuesday evening is composed of M. J. Buell, Dr. W. J. Blackburn and G. K. Jones. A. I. Getz represents the trustees and S. N. Blaricom the board of education.

TURKEY VICTIM  
WHEN YARWOOD  
PULLS TRIGGER

Crooks beware! There is a member of the Salem fire department who is about the best sharpshooter in these parts. He is how.

Ted Yarwood bought a live turkey for a sumptuous banquet at his home tomorrow. For several days Ted and his young heir have been carping at the bird.

Wednesday morning Yarwood decided that the bird's living days were over so he went out to get him and the turkey. But the bird, divining what would soon take place, had sought refuge in a other yard.

Unabashed Yarwood entered the little son, Gene and the two aided by numerous dogs in the neighborhood chased the bird hither and yon but turkey deftly avoided all efforts for his capture.

Suddenly the fowl flew up on a grape arbor some 40 feet from Yarwood. The fireman said here was the time to get him so he pulled his new Smith & Wesson from his pocket and shot the turkey through the neck.

Yarwood has witnessed to prove his feat and he challenges anyone to show proof of a better shot than that.

AIM OF EDUCATORS  
EXPLAINED BY ALANEmphasis Now On Character  
Formation, Travelers  
Club Is Told.

"New Emphasis on Education," was the theme of talk given by Supt. J. S. Alan of the Salem public schools at a meeting of the Travelers club Tuesday afternoon at the Chamber of Commerce rooms.

Mr. Alan told the Travelers that formerly emphasis had been placed on a strong mind and the body was neglected, that the old way was giving of facts through text books.

In present day education, according to Mr. Alan, stress is being laid on character formation. The schools are aiming to develop constructive imagination and are trying to develop self-expression.

Thinking also is being emphasized. Proceeding Mr. Alan's talk, Mrs. John W. Hendricks offered two piano solos and later gave two more. These selections being well received.

The committee in charge of the meeting composed of Mrs. Floyd McKee, Mrs. John Russi and Mrs. Harry Ernest, surprised the members by serving a lunch of Thanksgiving appointments.

Mrs. Joel Sharp was received as a new member. Mrs. Bertha Wetzel of Cleveland, was an out of town guest.

At noon Wednesday the Mullins A. C. was forced to cancel their title game at Rely field scheduled for Thursday afternoon with the Schafers Independents because the team was unable to get together.

The manager stated that it would be impossible to have a team on the field and so the Schafers scheduled the Washingtonville Pros for a game. Washingtonville will be the Schafers' opponent and will positively appear. Although it will not be a game for the championship of the city it will be a great game because of the fact that the Schafers beat the Pros 10 days ago 6 to 0 in a very tight and sensational battle.

IN WINONA CHURCHCounty Superintendent And

The annual Butler township fair held in the Winona Methodist Episcopal church Tuesday night drew hundreds from the surrounding territory. It was a miniature county fair—minus the line of amusements.

In the basement of the church were displayed products of the Butler township farms and the handiwork of the children attending the eight district schools. Several exhibits of cereals included those taking premiums at the last county fair, while the trays of apples potatoes and canned goods were new.

First to attract attention of visitors entering the basement were the two display cases of butterflies arranged by Hazel Pyle and Nancy Donahay. A crowd also surrounded the table on which was placed a panel exhibit of woods found in Butler township and brought to school by the scholars. Each of the 20-odd examples was four and one-quarter inches in length, of even diameter and the kind of growth was written on the card beneath each example.

On the walls were placed examples of drawing, penmanship, cut-out work and the like. Needlework was from the homes of the different children.

## Eight Schools Participate

The eight schools of the township taking part in the fair are: Willow Vale in charge of Cecil Mossbarger; Ash Ridge Edith Lehman; Valley, Sarah Metzler; center Hazen; Votaw, Coffee, Mary Dunn; Winona, Ina Azzoli; Votaw's, Phoebe Stoudt; McCann's Genevieve Ovington.

A very interesting program was arranged in the auditorium of the church, following the viewing of the exhibit. During the early part of the evening there was a radio concert, made possible by Homer Peters of Salem, who installed an outfit for the occasion.

Assistant County Superintendent J. L. Gray of Salem, was chairman of the meeting. He introduced County Superintendent H. C. Leonard of Lisbon and W. H. Matthews of Salem. The latter gave a word picture of his recent trip through the western wheat belt and explained how the growers in that territory worked.

Each school in the township provided one number of entertainment, this being a song, recitation or drill.

Mr. Leonard dwelt upon the objectives of education in the rural schools, with reference to knowledge and skill. This subject was linked up with agriculture, as the pupils of the rural schools gained their first experience in this line of activity. He also suggested that recreation for the children on the farm was just as essential as recreation for children in the city, but said that recreation on the farm was sadly neglected.

McCune will serve as captain of the shop teams. Sam Krause will be in charge of poster and outside advertising. Team members will be selected and named this week and at 6:30 p. m. next Tuesday the team work will begin, at which time instructions will be given them regarding the campaign.

It costs but one dollar to become a member of the American Red Cross and Salem hopes to make every family 100 percent during this annual Red Cross Roll Call.

While the Salem campaign is later than in most places it is believed Salem people are sufficiently familiar with the work done by the Salem chapter to be ready with their subscriptions as soon as they are solicited.

No general fund campaign for other community purposes will be conducted here this year.

Drennen; orchestra leader, W. H. Matthews; librarian, Robert Wheaton; assistant librarian, Robert Wheaton; treasurer, W. W. Tolerton; treasurer of lyceum fund, Dallas Keller.

This meeting was of special interest as it was the first regular board meeting under the leadership of the new pastor, Rev. C. H. Hauger.

Rev. Mr. Hauger gave a general description of the plans outlined in organizing a teachers training class. He spoke in highest praise of this board meeting, as being out of the ordinary with an attendance of 13 out of 43 of its members. He stated that during his 15 years of pastoral work it was the largest Sunday school board of official members that he had ever had the pleasure of meeting with.

Appreciation was expressed for a gift of \$17 from the Friends Bible school to help replace the windows of the church which were broken during the recent bombing.

## BLIND FIDDLER IS WISE MAN

Psychology Teaches Him Where to  
Play to Get Coins From  
the Public.

It is the fad to talk psychology  
these days, but few put it to such  
practical use as does one blind fiddler.  
Somebody told him that a well-  
known violinist was to give a recital  
at one of the large concert halls. A  
half hour before the recital, just as  
the early birds were arriving, the old  
fiddler chose the curb in front of con-  
cert hall for a recital of his own.  
He unpacked his well-worn instru-  
ment, dropped his shabby black hat  
and started his repertoire. "The Last  
Rose of Summer" was followed by  
"When You and I were Young, Mag-  
gie," "The Old Oaken Bucket," and  
others of the same school.

The enthusiastic crowd grew so  
large pedestrians had difficulty in pass-  
ing, says the New York Sun and Globe.  
As time for the recital inside the hall  
draw near, the crowd regularly dis-  
persed, but not without first filling the  
old hat with bills and coins.

Nobody knew what the old fiddler  
muttered as he packed up his fiddle  
and went on his way. Maybe it was  
"They know good music when they  
hear it." But just as likely it may  
have been "You've got to know when  
and where to catch 'em."

## Makes a Family Supply of Cough Remedy

Really better than ready-made  
cough syrup, and saves about \$2.  
Easily and quickly prepared.

If you combined the curative prop-  
erties of every known "ready-made" cough  
remedy, you probably could not get as  
much real curative power as there is in  
this simple home-made cough syrup,  
which is easily prepared in a few  
minutes.

Get from any druggist 2½ ounces of  
Pinex, pour it into a pint bottle and  
fill the bottle with syrup, using either  
plain granulated sugar syrup, clarified  
molasses, honey, or corn syrup, as de-  
sired. The result is a full pint of  
really better cough syrup than you could  
buy ready-made for three times the  
money. Tastes pleasant and never  
spoils.

This Pinex and Syrup preparation gets  
right at the cause of a cough and gives  
almost immediate relief. It loosens the  
phlegm, stops the more throat tickle  
and leads the sore, irritated membranes  
to gently and easily that it is really  
astounding.

A day's use will usually overcome the  
ordinary cough and for bronchitis, croup,  
hoarseness and laryngitis, there  
is nothing better.

Pinex is a most valuable concentrated  
compound of genuine Norway pine ex-  
tract, and has been used for generations  
to break up severe colds.  
To avoid disappointment, ask your  
druggist for "2½ ounces of Pinex" with  
full directions, and don't accept any-  
thing else. Guaranteed to give relief to  
satisfaction or money promptly re-  
funded. The Pinex Co., Ft. Wayne

## SOFTENERS FOR HARD WATER

Washing Soda is Cheapest, but Borax, Ammonia and Kerosene Also Are Useful.

The problem of hard water is one which confronts a great many housewives on wash day. There are many chemical agents used to soften the water. Washing soda is the cheapest agent, and perhaps the most generally effective. Two points only must be remembered in employing it. First, see that it is entirely dissolved before adding it to the washing water. Any tiny undissolved particles will go to work enthusiastically where they fall, and in their zeal are apt to eat up fabric and all. This is the explanation of the occurrence of holes and weak spots where washing soda has been carelessly used. Second, rinse with extreme care. Use even more than ordinary precaution. The nose is an excellent court of last appeal to judge whether linen has been sufficiently rinsed. If it smells soapy, or alkaline, return it for another swim in clear water. Some kinds of bluing will make rust spots on the clothes if the soapy water is not thoroughly rinsed out before immersion in the bluing water.

Borax is a most satisfactory water softener. It acts as a mild bleach to whiten linen and it has a slight germicidal action. It is entirely safe to use, and is less dangerous to colored fabrics than washing soda.

Ammonia and kerosene are also useful. Two tablespoonfuls of kerosene in a tub of hard water will save soap and rubbing, but will make care in rinsing more than ordinarily needed. Ammonia, like borax, is so mild as to be harmless to fabrics.—Modern Priscilla.

## Two Great Political Leaders Confer

Thomas Taggart and Charles E. Murphy.

Charles F. Murphy, leader of Tammany hall in New York city and recognized boss of the Democratic party in the east, is pictured at French Lick Springs, Ind., with Thomas Taggart, the Democratic "dictator" of Indiana, discussing national political issues. Mr. Murphy is believed to have tossed Gov. Alfred E. Smith's hat into the ring for the presidential nomination for the presidency when he gave out his statement favoring a referendum on the prohibition issue. New York's governor is an avowed "wet."

## THEATRES

### "Down To The Sea In Ships"

Raymond McKee, motion picture actor, is believed to be the only actor who has ever been honored by the exclusive Whalemans club of New Bedford, Mass., with honorary membership. In order to be admitted to membership (which is made up almost entirely of whaling captains) one must have actual experience in the throwing of the iron harpoon with which whales are attacked.

Mr. McKee appears in the leading role in the motion picture production entitled "Down to the Sea in Ships," now the feature attraction at the Grand theater. The part which he portrays is that of a young engineer, who before he can win the hand of the beautiful daughter of a Quaker whaling magnate, is required to prove his efficiency with the harpoon, the girl's father having exacted from her a pledge that she would never wed other than a whalerman.

To fit himself for the role, and to add realism to the photodrama, Mr. McKee practiced steadily and consistently for three weeks at throwing the harpoon, with the result that during the filming of the picture, when a 90-ton whale is actually attacked and killed, it was Mr. McKee's harpoon which first found its mark.

On account of the approach of Thanksgiving, a little more activity marked the marriage license court Tuesday afternoon, when four licenses were granted, and one couple was refused a license, because the mother of the bride was not in court to give consent. The father of this young woman appeared, however, but in this particular instance the word of the father could not be taken.

Atlee Bentz, a farmer and Blanche Harlan, both of Beloit, secured a license and announced they would be married by the Rev. Weaver.

Alva L. Taylor, station agent at Washingtonville, and Mary E. Somerville, also of Washingtonville, were granted a marriage license, and will be married by the Rev. H. A. Brandt.

The picture is brimful of action and drama and has a number of spectacular scenes.

Miss Elizabeth Wurtlmann &amp; parents

Miss Elizabeth Wurtlmann, shown with her parents in Jersey City, N. J., where she is a school teacher, has received \$150,000 under the will of Louis Lehmeier, 92, who died in the charity ward of a New York hospital. Lehmeier lived in poverty, and no one knew he was worth \$250,000, which he made in real estate operations. He left \$100,000 to charity. Seventy-five years ago Lehmeier, in Mainz, Germany, was best man for the grandparents of Miss Lehmeier, with whom he came to America.

## INTIMATE STORY

Continued from First page

the tomb of Ramesis VI. Twice the workmen stopped when they were within six feet of the channel leading to the tomb. The one Egyptian continued to work overtime, without pay and at sunset one evening he dug into the channel.

Hurrying on foot 12 miles to Luxor, he notified Mr. Carter, the American who had been assisting Lord Canarven, English explorer who had financed the search for 14 years. Canarven had returned to England for a rest but because he had financed the undertaking the credit of discovery was given to him, although Carter had returned at once and assisted the Egyptian in digging open the channel leading to the tomb.

During the first opening of the tomb a snake killed a cat in the tomb and the superstitious Egyptians went on strike, believing that God would not have them enter the tomb. Then a mosquito bit Canarven. It was not a serious infection that developed but Canarven's physical condition was weak and he could not throw off the infection which caused his death. To the Egyptians this was further proof that God did not want them to enter and this superstition was increased when Carter, overworked, developed pneumonia.

Following Canarven's death the tomb was filled in until the title was cleared and now Carter and American workmen are re-opening the tomb.

King Tut's tomb is the only one in the valley of tombs not touched by grave robbers. Baxter said, and he declared it was only fair that the body be removed to a museum to save it from the robbers.

The significance of the whole thing he continued, shows us that we must put back 500 to 600 years the date for the earliest type of highest civilization. It was at a time when Europe was coming into history of the East and marks the most ancient period of high civilization.

Prof. Baxter urged the Rotarians to think of it in terms of a two-fold tragedy, the tragedy of the 18th-century king and the tragedy of the Englishman who died just after the long search had ended successfully. And think of it in terms of what it can mean to reveal hitherto unknown history, he said.

Why is a barber's pole red and white?

—Because barbers used to be surgeons and displayed a red pole as a sign. Bandages, hung on the pole to dry, were wrapped around it by the wind; hence red and white stripes. Manyills, formerly treated by crude barber-surgeon methods, now are prevented by

## Thanksgiving Day

NO SPECIAL DAY of national observance so forcibly illustrates the rude and hazardous beginnings of our Nation as does Thanksgiving Day. It brings before us the hard and courageous struggles of those fearless men of faith whose dauntless souls were filled with thanksgiving for such benefits as had been vouchsafed them.

Today our thanks are due to those forefathers for the benefits and blessings that have sprung from the seeds of Liberty they planted in the long ago.

In giving thanks today let the first givers of thanks be remembered.

## Child-birth

WHEN the Little One arrives, you can have that moment more free from suffering than you have perhaps imagined.

An eminent physician, expert in this science, has shown the way. It was he who first produced the great remedy, "Mother's Friend," Mrs. C. J. Hartman, Scranton, Pa., says.

"With my first two children I had a doctor and a nurse and then they had to use instruments, but with my last two children I used 'Mother's Friend' and had only a nurse; we had no time to get a doctor because I wasn't very sick—only about ten or fifteen minutes. Use 'Mother's Friend' as our mothers and grandmothers did. Don't wait until today, and meanwhile write to Frankford Regulator Co., Box 75, Atlantic City, for a free illustrated book containing information every expectant mother should have. 'Mother's Friend' is sold by all drug stores—everywhere."

**Keeping Millions Free From Colds and La Grippe**

**W. H. HILL'S LIFE WORK**  
Colds cause more illness than any other human ailment. Realizing this 50 years ago, W. H. Hill determined to develop a quick-acting scientifically correct cold and la grippe remedy.

Years of research brought success. Mr. Hill discovered a most remarkable formula. He backed it with energy, faith, integrity and a name that meant "satisfaction or money back."

Today more than 4,000,000 families—one-fifth of America's population—use and recommend Hill's Cascara Bromine Quinine.

The formula has never been changed in a quarter century. What Hill's has done for millions, it can do for you. Demand red box bearing Mr. Hill's portrait. All druggists, 30 cents.

"Some days I could not work all day because of the misery I was in from gas on my stomach and belching, and I couldn't eat anything at all. Sleep at night was unknown to me. I have taken a bottle of Nerv-Worth and now I am able to work steady, and I can certainly recommend Nerv-Worth for Sold and recommended by Bennett's and Treats'.

what it has done for me." This wrote Mr. Deitman who resides in the West End, Piquette, Pa. The above statement tells its own story. If you suffer from nervous or stomach disorders, a general run-down condition, or their attending ills, give Nerv-Worth a trial. Remember, if your first trial bottle is not satisfactory, your druggist is authorized to refund your money. Sold by leading druggists.

## SECRETARY WEEKS APPEALS TO NATION

URGES THE PEOPLE TO SUPPORT  
THE MILITARY POLICY OF  
THE COUNTRY.

SECURITY, NOT MILITARISM

By EDWARD B. CLARK

Washington.—Recently the country was asked to celebrate Navy day. In some sections of the land there were celebrations, if speeches in behalf of adequate defense within the limits of laws and treaties can be declared celebrations. The navy officials seem to be satisfied with the response to their appeal to the people to keep up their interest in the sea service.

Secretary of War John W. Weeks has followed Secretary Denby's interest-producing campaign with an appeal to the people to support the country's military policy, for the United States, in spite of the activities of certain organizations dedicated to peace, freedom and other fine things, but which largely in truth are organizations in behalf of something much different, has and must have a military policy, even though it includes plans for defense only.

It is a hard job to rouse any interest today in either Navy or War department matters. When trouble comes the service man is a hero, but when trouble departs, he is just a plain, ordinary cuss who some Americans seem to think was just a plain fool for serving his country. As Washington reads the disclosures in the investigation into the early doings in the veterans' bureau, no one wonders any longer why the disabled veterans did not get the attention which duty and gratitude dictated should have been theirs. They were all right while they were fighting in the Argonne forest, but later there was little use for them as inviolable patriots.

### Appeal of Secretary Weeks.

Secretary Weeks in a public appeal for the country's support of the government's military policy declares that the army of the United States today is just about the size of that of disarmed and helpless Germany. Secretary Weeks' appeal was made public through the National Security League, which is doing all it can to make Americans, even in peace time, know that all times are not peace times and that ever since the Philistines gave battle to the elect of earth wars have come, even in the face of prophecies that never again could they come.

Secretary Weeks in his appeal to the people of the whole United States declares that "the War department in asking the country to continue to support the present military policy of the United States to the utmost of their endeavors, is performing a patriotic duty and a government function in full conformity with the historic traditions and the democratic principles of this nation. The law under which our army functions is not militaristic. Its principles and operations are essentially democratic."

Everything that has been done and said by the War and Navy departments since the close of the world conflict has been to the effect that this country does not desire either a huge army or a huge navy. In fact, the word has been that the desire is to keep the regular forces within the limits of defense necessities, but that the effort must be to secure an organization and trained leaders to enable this country in time of grave emergency, which may arise nobody knows when, to raise a serviceable citizens' army.

### Army Depends on the People.

The war secretary says in his appeal:

"Under our present law the army depends more upon the people than ever before; it works among the people and asks the assistance of the people. So long as this democratic law is on our statute books and our armed forces comprise less than one-seventh-hundredth of our population there is no danger of militarism in America."

Washington officials who look at Europe and who have a realizing sense of the possibilities of the future seemingly think that the great masses of the American people are content literally to let things rip so far as anything looking to the defenses of the United States is concerned. The appeal of the war secretary is one asking for interest in what the military authorities are trying to do. The thought seems to be that when it once is known that militarism and all thoughts of it are absent from the counsels of the army, the people will give attention to those things which are necessary to give Uncle Sam at least an organization which can be utilized in the day when trouble may come to him.

The national defense act asks the people to take an interest in the future welfare of their country and to give some of their time and energy to the accomplishment of the patriotic program for national defense. The national defense act is an act of congress, the act of the representatives of the people and the war secretary apparently desires that the country shall get a realization of the fact.

There have been some recent evidences, it is said, of an aroused interest for a broadly democratic plan for the protection of the United States and its position in the world today. Secretary Weeks asks that the excellent work shall go on.

## 7 BILLIONS DUE UNCLE SAM FROM FOREIGN NATIONS

Loans Uncollectable For  
An Indefinite Period  
Report Will Say.

Washington, Nov. 28.—Uncle Sam, as a creditor, has on his books about \$7,000,000,000 money borrowed from the American people and loaned to Europe, which the treasury designates as "uncollectable for an indefinite period."

This substantially will be the report to congress next week by the American debt funding commission.

Preliminary to reporting to congress the status of obligations due the United States on account of war loans made to European countries the American commission has just concluded a fresh survey of Europe's "ability to pay." The result of this is disturbing to the American government.

The attitude of France is regarded by higher officials as "disquieting." The American commission for the present has deferred resorting to a policy of prodding France to liquidate her debt which now totals approximately \$4,000,000,000.

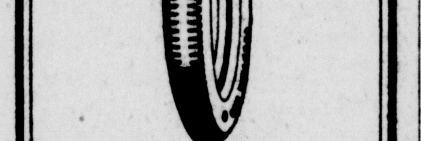

The administration takes the view that to bring pressure upon France and other larger debtors would be a possible expedient but a doubtful one for all practical purposes, as the French government has neither gold nor dollars with which to settle.

The best that France has given the American commission is a promise, hinged upon what officials term purely visionary expectation of what France will force Germany to pay in war damages.

The American commission, while not disclosing the more intimate details of their survey, showing a distressing state in the European treasury, will make it clear that it is now only possible for this government to pursue a policy of hopefulness that out of the reparations' muddle some more logical common ground may be reached by the disputants, and thereby set going revenue-producing channels now dormant.

Aside from debt payments now being met regularly by Great Britain in liquidation of her debt of nearly \$5,000,000, there is no belief that government revenues will be augmented from foreign sources for another year, or perhaps longer. Officials said it all depends upon Europe getting its own house in order.

Schenectady, N. Y.—Traffic on three New York Central railroad tracks was tied up for four hours when an eastbound freight buckled and scattered a dozen cars across the tracks. The wreckage caught fire.

## ONLY TWO BILLS ARE NONPARTISAN

BONUS PROBABLY WILL WIN AND  
IMMIGRATION MEASURE IS  
LIKELY TO FAIL.

### OTHER CONGRESS PROSPECTS

By EDWARD S. CLARK  
Washington. — The administration will have certain legislation to recommend to the consideration of congress which soon assemblies. These measures, of course, will be known as administration Republican measures. The representatives of the bloc in congress will have measures of their own to introduce for which they will ask support. After a study of the measures which are likely to be introduced, it seems likely that only two of them can be looked upon as nonbloc and nonpartisan insofar as support for them in the two houses is concerned.

The two exempted measures are immigration and the bonus. On everything else which has been suggested as likely to come before congress, blocism and partisanship will be much in evidence. It is to be doubted if the Republican leaders believe that any bills of importance, conservative in their nature and backed by the administration, can be enacted into law by a straight party majority.

The Republican leaders today seemingly are as anxious as ever, because of the imminence of the presidential campaign, to pass certain measures by a party majority and thus to let the voters know that a harmonious congressional Republicanism is backing a Republican administration.

#### Bonus Has Support Everywhere.

The bonus has its support in the ranks of all congressional elements, Democratic, Republican, Farmer-Labor and every other element with a name or without a name. The bonus bill, if it goes through, as it probably will, can be claimed as a Republican measure only because the Republicans have a majority in each of the two houses—that is, they have it if certain men written down as Republicans are rightly so written down.

As for immigration, the expectation is that any attempt to let more immigrants into the country than may come under the present law will be defeated by a combination of Republicans, Democrats and blocs. The only support for easier admission for immigrants to the United States probably will come from the extreme conservatives of the Democratic and Republican parties, and there probably are not enough of these in either house to secure the result that they seek.

The friends of more lenient immigration laws also will have the support of representatives of certain racial groups in congress, and beyond this they count on nothing, for country-wide manifestations have proved pretty conclusively to the majority of congressmen that the country wants to Americanize the foreigners that it has before it allows others to come in faster than they are coming now.

One chief Republican endeavor in the next congress will be to cut the appropriations so that the party can go before the country next summer to say, "Look at the saving grace of our action." It is pretty well known that President Coolidge will urge economy to the parsimony point. The Republican majority will do its best to meet the administration's recommendation, and it can be taken for granted that the Democrats will enter no objections.

#### Army and Navy Suffering.

Certain departments of government are having their activities checked by a lack of funds to do what probably ought to be done. The army and navy particularly are suffering today and there seems to be no doubt at all that they will continue to suffer. Students of conditions say that congress may save the people some money next winter by withholding appropriations for some of the varied works of the government departments, but that in the future the taxpayers of the country will pay five-fold more because of the present-day desire of congress to effect what will look like a saving.

The Republican majority has its legislative program, and the "radical-progressives" have their program. The Republican majorities in house and senate are small and they are not really majorities at all. The progressives will not allow the party to which most of them belong, in name at least, to put anything at all through, unless they get something for what they give. They are not likely to get much, because the things which they suggest are things to which Republicans who also are conservatives probably cannot subscribe.

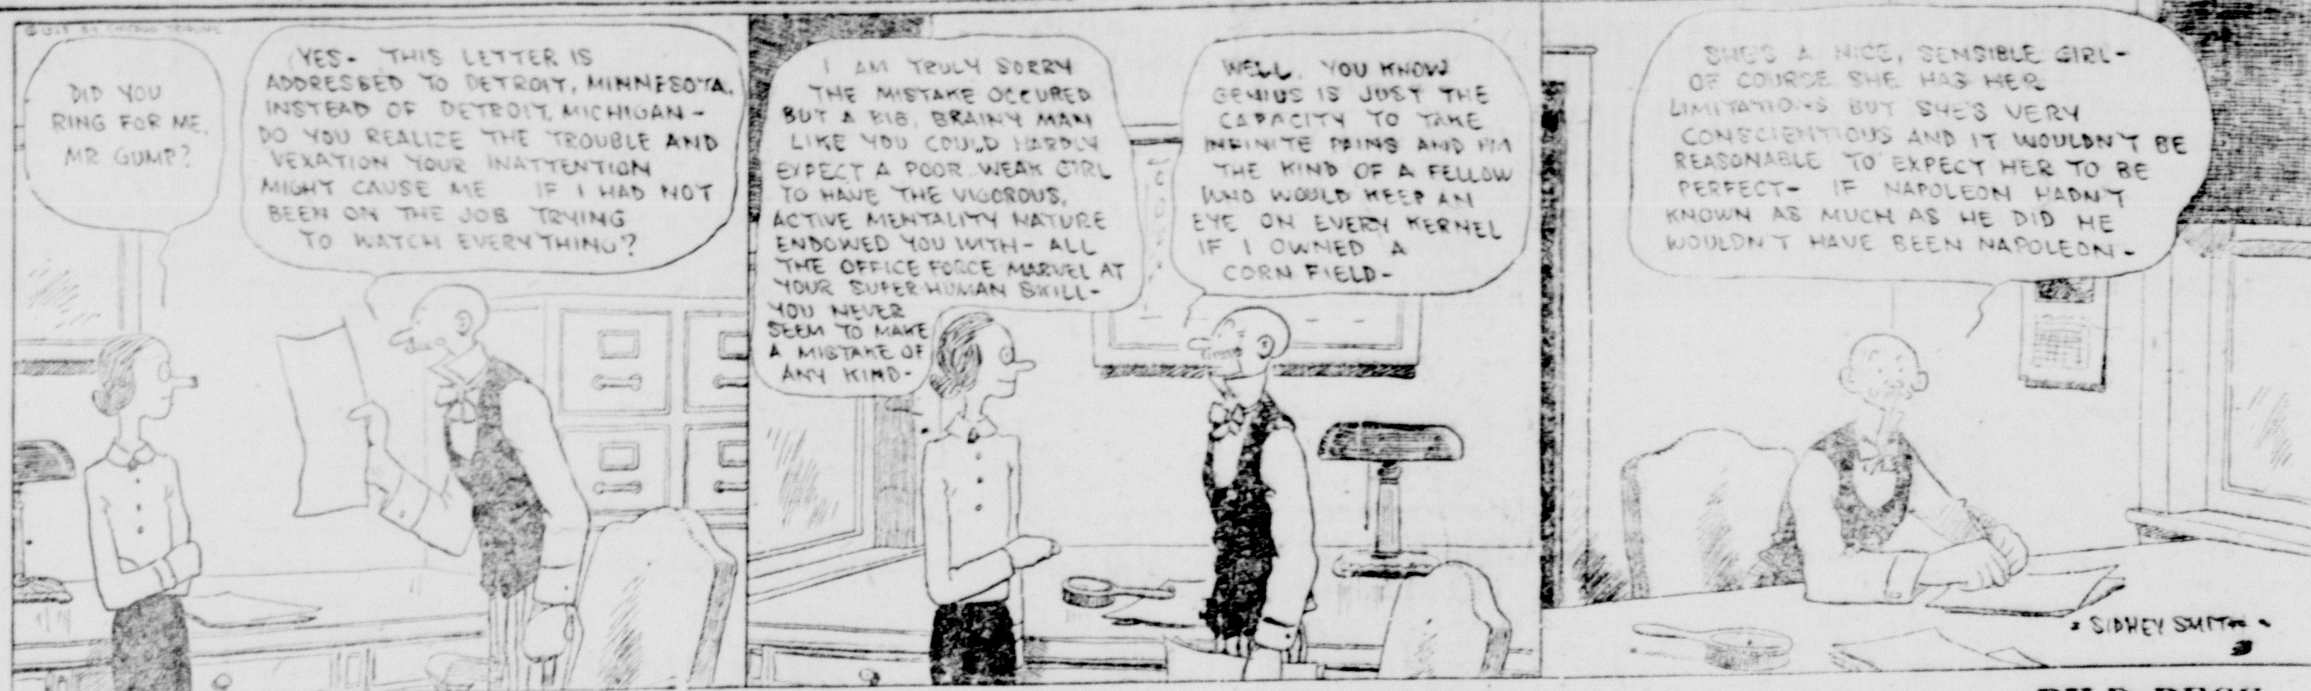

An attempt will be made to secure complete revision of the present railroad law. The conservatives will not listen to this. It is pretty well known also that a certain contingent will attempt to put a resolution through which will deny the right of the Supreme court to declare unconstitutional by a five to four vote any act of congress.

## Victory Over Lisbon Will Make Salem Runner Up

With the cancellation of the East Liverpool-Willsville High game for Thanksgiving day, the Salem-Lisbon clash will be the only all county game. East Palestine engages in a tilt with Westinghouse Tech of Pittsburgh at the holy city. All other county teams either have finished their season or play outside teams. East Liverpool now being scheduled to meet Rocky River High of near Cleveland.

The Turkey day battle in Salem will decide whether Salem High will finish second in the county race. At present Salem, Leetonia, East Palestine and East Liverpool are tied for second place, the first three schools having won two and lost two games while Liverpool has won one and lost one.

Lisbon is thought to be too weak to stop the Red and Black and that team will go into second place with three wins not a bad feat for a green team.

The game, however, is not regarded as cinched. Lisbon is in earnest about this secret plan stuff and promises to uncork a heavy smashing attack against Salem. Rightman has had his men out on Reilly field for two nights wallowing in the mud for long scrimmages and learning new plays for the game which must be won to give Salem High the runner up position. It is probable that there will be a slight shift in the lineup for Thursday. All varsity men will see action and if the game goes well no doubt some subs may get in for a minute or so.

## HORNSBY IS GIANT NOW, SAYS REPORT

New York, Nov. 28.—Rogers Hornsby is already a member of Giants, if semi-official reports, waited about today, can be believed.

Hornsby has been traded here by the Cardinals. It is said, in one of those triangular transactions for which John McGraw was famous in other years, the Chicago Cubs being the other club involved.

Giant officials would neither deny nor affirm the report but it was whispered that confirmation is being held in abeyance pending McGraw's return from Europe.

Details of the completed deal, if any, are just a bit vague at this time but it is claimed that the first step was the acquisition by McGraw of Charley Hollocher from the Cubs for Billy Southworth, the new outfielder; a pitcher, possibly Bill Ryan and another infielder, identity not disclosed. Hollocher then was used, so the story goes, as bait for the Hornsby deal with the Cardinals.

## MOUNT HOPES TO DEFEAT WOOSTER

Alliance, Nov. 28.—Although Ohio Conference fans refuse to take seriously Mt. Union's chances of downing the fast Wooster eleven Thanksgiving day, the purple promises to spring a surprise and spoil Coach Boles' turkey dinner.

Back in 1918, when Mount was leading the conference and the Presbyterians were the only team which stood between Mount and the championship the stage was all set for an easy contest, but Boles spoiled everything and the Methodists lost their grip on first honors. Wooster comes to Mount this year expecting little opposition but Coach Thorpe's men intend to get even and administer the same stinging defeat they received five years ago.

That Mount can fight and hold teams heavier than they are, was shown when they beat the Miami aggregation, 7-6 two weeks ago. The purple has lost to two conference teams, Akron and Wittenberg, only after the victors had worn out their lighter opponents after hard fighting. If Mount can withstand the Wooster attack, and not crack like Denison last week, the conference leaders will have a battle on their hands.

## WANT MARIETTA IN OHIO WHEEL

Marietta, Nov. 28.—Talk of Marietta college becoming a member of the Ohio Conference is being revived here following the record of the football team in winning six of eight games played this season.

Hidden away in a corner of the state, Marietta has confined its schedule almost entirely to West Virginia and Pennsylvania opponents and many alumni and students now are contending that the proper field for the school's athletic endeavor is in its own state.

## NATURE TELLS YOU

As Many a Salem Reader Knows Too Well

When the kidneys are weak, Nature tells you about it. The urine is nature's index. Infrequent or too frequent passage. Other disorders suggest kidney ills. Doan's Kidney Pills are for disordered kidneys. Salem people testify to their worth.

Ask your neighbor! Arthur Simm, machinist helper, 90 Lincoln ave. Salem says: "A cold settled on my kidneys. It was while I was in the Merchant Service a few years ago playing between all sorts of friends of the world, that I caught this cold. I was exposed to all sorts of weather and doing a seaman's work was a strain on my back. To stoop at my work or lift anything caused sharp pains to shoot through the small of my back. I had to pass the kidney secretions often during the day. I started to use Doan's Kidney Pills. As I knew they were good for kidney weakness and after taking one box, my kidneys began working regularly again and I had no more backache." 60c at all dealers. Foster-Milburn Co., Mfrs., Buffalo, N. ### WHERE THE RAINBOW TOUCHES THE GROUND

THE family cat died. The farmer who owned the cat, in digging the grave discovered a substance which proved to be marl. This farmer had been hauling limestone a long distance for his alfalfa fields. In conference with his county agent, he discovered that marl would take the place of lime in correcting the acidity of his soil. This experience led him to the use of marl that existed on his own farm and saved him much time and considerable expense in hauling.

Similar opportunities have existed and still exist. Many farmers in the middle west will recall what a pest sweet clover used to be. Now this pest is being used profitably as hay and pasture for livestock and as a crop to be plowed under for increasing the fertility of the soil.

Kansas is called the "Sunflower State" and those who have lived there will remember how they have fought this weed. Today sunflowers are being grown as a crop, as feed for chickens and it is also being utilized with or without corn as a suitable crop for the silo.

It is surprising to discover how many things which were frowned upon in days gone by are now serving a useful purpose. These changes have been brought about by observation and study. Brains count on the farm as elsewhere. The man who thinks while he is performing physical work is not only opening up the way for larger profits but he is removing the word drudgery from his vocabulary and is transforming what used to be a drudgery into a profitable pleasure.

—The Banker-Farmer.

### BANKERS HELP THE KIDS

Northern Michigan Bankers are out to give the youngsters in their part of the country a lift on the road to better dairying. A group of bankers met with some of the agricultural men in their section and pledged their support in backing up calf club work.

Her Very Own Pig—A Boys and Girls Club Member

Virginia, Minnesota. Bankers have faith in "kids." Meeting with a committee from the Virginia Chamber of Commerce they formulated plans for the establishment of Calf Clubs and "Pure Breed Bull Associations." Banks all over St. Louis county have pledged their support to this work.

An Arkansas bank loaned a youngster \$70, in 1920. The boy bought a purebred Poland China gilt from a breeder in a neighboring state. Being the first purebred gilt brought into the county for boys and girls club work, she has furnished more stock than any other sow in the section. With the start that the bank gave the youngster he has been able to refute the claim that hog raising in his county was not profitable, for at the present time he has more than \$1000 to his credit as a result of the original bank loan and investment.

### REMARKABLE SAVINGS FIGURES

Remarkable progress in the savings habit in the United States is shown in figures presented to the recent convention of the American Bankers Association by Samuel H. Beach, president of its Savings Bank Division.

In 1921, Mr. Beach showed, twenty-six million people had savings accounts aggregating \$16,618,595,000. In 1922, there was an increase of over four per cent, bringing the aggregate up to \$17,300,000,000. Similar statistics for 1912 showed that the aggregate was only about half as much as in 1922 or only \$8,433,000,000.

Mr. Beach's report on school savings banking showed that practically two million pupils are now participating in school banking systems, an increase of 34 per cent as compared with last year and 55 per cent as compared with 1921, while the total of the actual amount deposited last year was \$9,618,000, as compared with \$5,775,000 in 1921 and \$2,800,000 in 1920, an increase of nearly 240 per cent in three years.

### ENDS A HEAD COLD QUICKLY; JUST USE THIS PURE CREAM

If your nostrils are clogged, your throat distressed, or your head is stuffed by nasty catarrh or a cold, apply a little pure, antiseptic, germ destroying cream into your nostrils. It penetrates through every air passage, soothing inflamed, swollen membranes and you get instant relief.

How good it feels. Your nostrils are open. Your head is clear. No more hawking, snuffling, dryness or struggling for breath. Get a small bottle of Ely's Cream Balm from any druggist. Colds and catarrh yield like magic. Don't stay stuffed up. Relief is sure.

### HOW OLD AGE CAN BE EVADED

Keep Insisting That You Are Young, and Resist the Suggestions of Others.

Doc Henneberry has just proven the excellence of a long-held theory. For as long as I can remember Doc has insisted that age can be evaded, within limits. Nothing, he says, will grow hair on a bald head. But if the owner of the hairless caput will say to himself:

"I am not old. I will not be old. I shall remain a man of hale middle age."

He will not know he has over-ripened until the day the reaper gets him with his hook, says a writer in the Kansas City Star. Doc points out that not one man in a million realizes he is old until his younger friends begin to exhibit needless consideration for him.

"It is a shock for any man when he first hears himself referred to as 'the old man.' But if he is not a person of sturdy character he soon begins to act old. He has not been able to resist the power of suggestion."

Doc has been preaching and acting this for years. But last week his father dug himself out of the living groove he has been occupying for years and came to the city to visit his son. Doc says the old fool is a virtuous proof of the truth of his theory of the essential youthfulness of man. He rolled forty years off his shoulders the first time he heard his son's ideas about being young.

"I'm going to send for mother," said Doc. "Young or old, she always had his number."

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work.

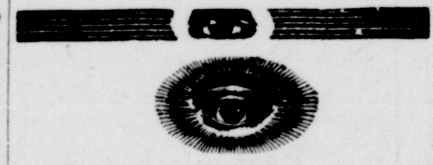

People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.

All the benefits of nasty, sickening, gripping cathartics are derived from Dr. Edwards' Olive Tablets without gripping, pain or any disagreeable effects.

Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint, with the attendant bad breath.

Olive Tablets are purely a vegetable compound mixed with olive oil; you will know them by their olive color. Take one or two every night for a week and note the effect. 15c and 30c.
